March 5, 2008

To: Dr. John P.A. George MD
Gynecologic Endoscopist
6323 Georgia Avenue NW
Washington DC 20011

Dear Dr. George

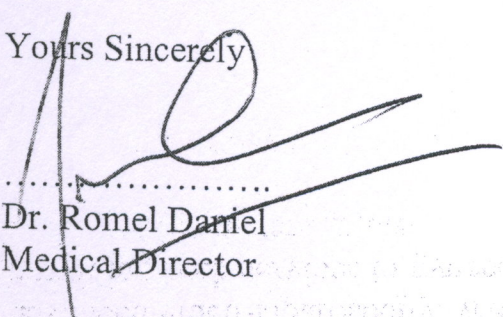

You were referred by Dr. Hector Collison, a mutual colleague who informed us of your expertise in Gynecologic Laparoscopy, and suggested that we contact you for assistance in setting up a Laparoscopic program at our Hospital. Dr. Trona Bennett, Obstetrician and Gynecologist, will act as the point of contact person.

Our (6) gynecologists at the hospital have a strong interest in furthering their laparoscopic skills. Presently, however, only basic laparoscopy is performed, and the surgeons provide their own equipment for the performance of diagnostic laparoscopy and tubal sterilization.

We are eager to acquire the equipment, instruments, training and skills to perform advanced video-laparoscopy. We even foresee our institution serving as the site for providing such services to gynecologists and patients from the entire Eastern Caribbean in the not too distant future.

Should you have an interest in assisting gynecologists to provide better laparoscopic services to patients from the Eastern Caribbean, please do not hesitate to contact us for discussions.

Yours Sincerely

.....
Dr. Romel Daniel
Medical Director

Cc. Dr. Trona Bennett – Obstetrician Gynecologist
Mrs. Sybil Martial - Hospital Executive Director
